TECHNOLOGIES

*Bringing Islamic
Learning to Life
Through Technology*

Qari Technologies is a registered Islamic technology brand dedicated to making Qur'anic learning and Islamic education more accessible through thoughtfully developed electronic products.

Established in 2004, the company has grown from producing MP3 Qur'an USB devices into a diversified portfolio that includes Pen Qur'an devices, Qur'an speakers, Adhan clocks, Smart Prayer Mats, Islamic lamps, customized Islamic multimedia solutions, etc.

Qari Technologies manages the complete product-development process. Concept development, product design, software/firmware development are carried out in Pakistan, while tooling, molding, manufacturing, assembly, QC, and packaging are handled in China.

The company serves publishers, distributors, importers, wholesalers, and brand owners with ready-made, OEM, ODM, and private-label solutions. Customers may select an existing model, modify a product, or develop a new solution from concept to production.

Customization options include product design, molds, branding, colors, packaging, languages, translations, reciters, Islamic content, firmware, software functions, accessories, & market-specific features.

Islamic-content accuracy remains a central priority. Qur'anic text, audio, pronunciation, recording quality, etc. are carefully reviewed internally and through third-party verification before production.

The company has developed more than 100 products and completed over 100 customized OEM and private-label projects. Its products are supplied across more than 20 countries throughout Asia, the GCC, North Africa, Europe, and the United States.

Combining responsible Islamic content, technical expertise, flexible customization, and scalable manufacturing, Qari Technologies provides a reliable platform for developing meaningful Islamic products for modern audiences.

PQ22

M9 | Simple, Screen-Free Qur'an Learning

The M9 model provides the complete Pen Qur'an learning experience through a straightforward screen-free design. Available in Silver and Gold colors, its simple button-based operation makes it a practical choice for users who prefer direct audio interaction without an on-screen interface.

PQ20 | Faster Second-Generation Screen-Free Model

The PQ20 Model offers the same complete screen-free learning system in an updated second-generation design. It provides faster response performance while retaining the standard operation of a traditional Pen Qur'an. It is ideal for users who want a no-display model with enhanced performance.

PQ21 | Two-Line LCD for Convenient Navigation

The Advanced Model adds a monochrome two-line LCD to the complete Pen Qur'an learning system. The display provides basic on-screen information and clearer menu guidance, making it easier to navigate functions and monitor selections while using the pen.

PQ22 | Color LCD Display and Removable Battery

The Premium Model combines the complete Pen Qur'an feature set with an integrated color LCD display. The color screen provides a more engaging visual interface & enhanced navigation through menus, settings, and other functions. It is also equipped with a removable rechargeable BL-5C battery, allowing convenient battery replacement when required.

✦ Designed for Different Learning Needs ✦

The Qari Digital Pen Qur'an is suitable for:

- Children beginning their Qur'an-learning journey
- Adults learning correct Qur'anic pronunciation
- Non-Arabic speakers seeking translation support
- Students practising word-by-word recitation
- Hifz students revising and repeating selected verses
- Families using Islamic learning resources at home
- Madrasas, schools, and Islamic learning centres
- Elderly users who benefit from audio-assisted reading
- Individuals seeking daily Qur'an listening, duas, and Ruqyah

The clock provides access to built-in Qur'anic content, including Holy Qur'an recitations, translations, Programmable playback, Al-Ruqyah Al-Shariah, Islamic supplications, etc.

Complete Prayer-Time Functions

Automatic Daily Prayer-Time Updates

Once the location and prayer-time settings are configured, the clock automatically updates the five daily prayer times. This reduces the need for frequent manual adjustment.

Settings for Up to 28 Cities

Prayer-time configurations can be stored for up to 28 cities, supporting use in different locations and regional markets.

Iqamah Countdown

After the Adhan, the clock displays the remaining time until Iqamah, helping users prepare for the beginning of the congregational prayer.

Iqamah Takbeer

When the scheduled Iqamah time begins, the clock automatically plays the Takbeer as an audible notification.

Qur'anic Reminder Before the Adhan

15 minutes before the Adhan, the scrolling display presents a Qur'anic reminder encouraging users to maintain their prayers: *"Maintain with care the prayers and the middle prayer"*

Friday Jumu'ah Reminder

A dedicated Qur'anic reminder appears 30 minutes before the Friday Jumu'ah Adhan, helping users prepare for the Friday prayer.

Time and Calendar Display

Hijri and Gregorian Calendars

Both the Hijri and Gregorian dates are displayed, enabling users to follow the Islamic lunar calendar alongside the international calendar.

Complete Digital Time Display

The clock displays the current time in:

- Hours
- Minutes
- Seconds

This gives a clear and continuously updated time.

Ambient Temperature

The clock also displays the surrounding room temperature alongside its time and prayer information.

Design and Construction

The clock features a durable ABS plastic body with an acrylic-glass front panel. Its black casing is complemented by decorative white, green and gold detailing, giving it a contemporary appearance suitable for both residential and religious environments.

☀ Scrolling Information Display ☀

The electronic scrolling display shows prayer information, reminders & setup instructions. Displayed information may include:

- ✓ Days of the week
- ✓ Hijri lunar months
- ✓ Gregorian calendar months
- ✓ Takbeer phrases during the Adhan
- ✓ Qur'anic reminders
- ✓ Menu headings
- ✓ Configuration instructions
- ✓ Setup and operating prompts

Mobile-Phone Reminder

During the final minute before Iqamah, the clock displays a "Please Switch Off Your Mobile Phone" reminder.

☀ Convenient Operation ☀

IR Remote Control

The supplied infrared remote control allows users to configure and operate the clock conveniently from a distance.

Rear Control Panel

The clock can also be configured directly through the control panel located on the rear of the unit.

Multilingual Interface

Multiple display languages are supported, making the clock suitable for different countries, markets and user groups.

☀ Power and Memory Functions ☀

Night-Time Power-Saving Mode

The clock includes a night-time power-saving function that reduces unnecessary power consumption during overnight periods.

Long Memory Backup

In the event of a power interruption, the clock retains its time and date information for more than six months, reducing the need to reconfigure after an extended power outage.

Internal Memory

The built-in 8GB memory stores Qur'an recitations, translations, Al-Ruqyah, supplications and other Islamic audio content.

☀ Included Content ☀
